

Pablo Leonardo Galeano

Electronic Engineering – Full Stack Developer

I am an electronic engineer with over 11 years of experience in the field of information technology. Throughout my career, I have held key roles in projects that have maintained high availability at all times. My areas of expertise include network management, virtualization, storage, and the administration of Linux and Windows-based systems. I collaborate with teams to automate tasks through scripting in various programming languages.

Currently, I am expanding my skills as a Fullstack developer, where I have gained knowledge in HTML, CSS, JavaScript, React, and backend development. Additionally, I have successfully completed a Python course. My focus on continuous development reflects my commitment to constant improvement and the acquisition of new skills.

I am excited to continue growing in my career and applying my knowledge and experience to challenging and dynamic projects.
